

MAMMAL POSTER/REPORT PROJECT

- * COLLECT PICTURES AND INFORMATION ABOUT A MAMMAL OF YOUR CHOICE
- * ARRANGE COLLECTED MATERIALS NEATLY AND ATTRACTIVELY ON STANDARD PIECE OF POSTER BOARD

On the poster board include the following

1. Name of the mammal
2. Picture of the following
 - the mammal
 - its predators
 - its food source
 - size
 - range (refer back to the science book chapter 1 for more info on range)
 - habitat
 - and its tracks (if applicable)

BE CREATIVE. For example, if you can use a 3D effect to show the food source like glueing grass to the board, that would make the project more creative.

This project is due in 2 weeks. It will be graded as a test according to the following criteria and then displayed in the classroom and website and other publishing sites.

- a. Is it neat?
- b. Is all the information included?
- c. Is everything spelled correctly?
- d. Is it well-planned?
- e. Is it the student's work?
- f. Is it creative?
- g. Is all writing in cursive?

EACH STUDENT WILL PRESENT HIS/HER PRESENTATION ORALLY. I will be grading the presentation based by the following

- a. Needs to be 3-5 minute in length
- b. Speak clearly
- c. Correct posture
- d. Memorize the presentation

=====

YOUR CHILD WATCHED A DVD OF SOME OF MY STUDENTS PRESENTING FROM PAST YEARS. THEY KNOW WHAT IS EXPECTED AND KNOW WHAT THE PROJECT SHOULD LOOK LIKE.
