

# SPACE ORAL REPORT

Due \_\_\_\_\_

## Directions:

Each report should include the following:

Present an oral report for at least 2 minutes.

You will use the format given on page 184 in your Language book.

Write main points on index cards if you need to. Your cards will only have key words on them. You will not read from your note cards word for word. They are only there to guide you.

Include a drawing or print out of your topic so we can see who or what you are speaking about in your report. Be sure to use colored pencils or crayons if you decide to draw. NO MARKERS

If you want to bring in additional pictures that go along with your topic, please do so.

You may look on our website at the rubric to see how I will grade your presentation. Go to “Laser Book Reports” and then to the month of March.

## TOPICS TO CHOOSE FROM INCLUDE:

Space Probes

Space Shuttle

Dragon Capsule

Animals into space

Types of Rockets

NASA Space Centers

Mar Rovers

Scott Carpenter

Eileen Collins
